# SENATE DIVORCE **MEASURE FORBIDS ANY TO REMARRY**

Ramsdell, Pointing Out Evils, Proposes Amendment to the Constitution.

FAST GROWING HERE.

Twice as Many Decrees Granted in United States Than in All Christendom.

WASHINGTON, Feb. 4.-Divorce with the right to remarry would be prohibited forever in the United States and in all places under the ment to the Federal Constitution proposed in the Senate to-day by Senator Ransdell of Louisiana. Enactment of uniform mariage laws for all States and Territories, with provisions for separation without permission to remarry, would be directed

With the States of the Union granting more than twice as many livorces as all the rest of Christen dom combined, Senator Ransdell told his colleagues that the time had come for the nation itself to put down this menace to "the chief bulwark of society, the home—the maker of good citizens and the model on which every wise government is

"The remedy by constitutional prohibition is drastic," said the Senator, "but the malady is so fatal that nothing short of it will prove efficacious. In the United States divorce s spreading with alarming rapidity. It has permeated every walk of life and is prevalent among every class of people. The total number of divorces granted in 1867 was 9,937, or 27 per 100,000 population.

Forty years later, in 1906, there were 72,062 divorces, or 86 per 100,000; thus in actual numbers there were

more than seven times as many di-vorces granted if 1906 as in 1867, or, allowing for the increased population, divorce had increased 319 per cent.

there is every indication that they will increase faster—then before the middle of this century we will have annually in the United States 275 divorces per 100,000 population, or one divorce for every five marriages. "If the United States were to write

"If the United States were to write in the Constitution an amendment prohibiting absolute divorce, it would not be taking such a radical "tep as might at first be thought, but would be following a beaten path. Our own State of South Carolina—all honof to her—forbids divorce, it is absolutely prohibited in Italy, Spain and to two-thirds of the population of Austria-Hungary, while the Latin-American countries of Mexico, Argentine Republic, Brasil, Peru, Chile and others have similar laws.

"If the United States were to write in the Constitution and amendment prohibited in the Constitution of the feminist movement, the vision which haunted a great English movement, the vision which haunted a great English poet half a century ago when he wrote "The woman's cause is man's, they rise and fall together."

When I heard Miss Powers talk on "Man and Woman—Together—The Keynote of the New Democtary," at a parlor suffrage meeting, it seemed to me that as a negotiator of an important entente cordiale she deserved a wider hearing. There are already not a few persons who take seriously that hilarious impossibility summed up in the phrase "evantagenism".

Rome became mistress of the world. But with the accumulation of colossal wealth came great laxity of morals, and marriage became a jest.

The heroic virtues of their early years were forgotten and the empire fell, the victim of luxury and disregard for the binding effects of mar-riage.

"If so, why is it that a young wife and mother, thrown on her own resources through the death of husband or father, will become both the bread winner and the home maker? MORE FREE.

"Did you know," Miss Powers broke off suddenly, "that the real native New York woman, the Iroquois squaw, had more freedom than belongs to the modern woman in this State? The Iroquois mother held the balance of power in naming the chief of the tribe, and could depose him if of the new \$200,000 Grove street he showed himself derelict. She had a voice in all public councils. She negotiated marriage and granted divorce, and when she was married took neither her husband's name nor his clan. She controlled and willed away her property, and could veto any grant of land made by a man.

"But woman need not usurp man's place in order to learn self-expression. A society carried on by women alone would be disastrous, just as a society built by men alone has proved inadequate. A report on the best use to be made of Sing Sing prison was made public to-day by the New York State Commission on Prison Reform, of which Thomas Mott Osborne of Auburn is chairman, and George W. Perkins and State Superintendent of Prisons Riley are members.

FERRYBOAT DODGES DYNAMITE GRAFT

With 2,000 Passengers Aboard, Big Vessel Almost Meets Disaster in Fog.

The 2,000 or more passengers on the ferryboat Queens, coming over from St. George, S. I., shortly before nine o'clock this morning had the scare of their lives when out of the fog before them loomed up a dynamite tugboat, not 100 feet ahead of them.

Capt. Emmens and Mate Brenle were in the pilot house and were feeling their way cautiously, sounding the siren continually and sending the Queens ahead at a little less than half speed. Suddenly, directly ahead, there came the shriek of a whistle out of the fog. It wasn't the ordinary steamer whistle, nor the siren of a tugboat. It was just a weird screech. Capt. Emmens rang to stop and as the ferryboat slowed down with just steerage way on, there loomed up 100 feet ahead a little motor boat with a big black box forward and flying at the fore a big red flag. It was a dynamite boat.

The passengers crowded forward till the Queens went down by the head. The little craft with the devil's cargo shifted and sheered off to port and then headed to follow in the wake of the Queens. Then the passengers hurried aft. The dynamite craft kept in the steamer's wake until she turned into her slip and the passengers of the Queens didn't Queens ahead at a little less than half
